"Peer chart review" is a common approach healthcare providers use to monitor and assess their own quality of care and documentation. It is a recognized best practice for reducing risk exposure both in terms of legal risks and in the event of an insurance/ Medicaid audit.

Instructions for Using the Peer Chart Review Form									
Randomly select 5 patient visits. Print off, or save as a PDF, the following components of the chart/visit:									
Progress note	for visit								
Section of chart that contains diagnosis: odontogram, narrative, diagnosis code									
Supporting x-rays or intra-oral photos									
If not described in the progress note, documents which reflect consent for care, medical history, and non-covered services agreements (Medicaid)									
Send information to partnering dentist through secure e-mail or mail									

Peer Chart Review for Quality Form							
Date(s) of Evaluation: Dentist Name:	Reviewer:						
Time needed to complete Chart Review: Total number of Charts Reviewed:							
Patient ID							
Date of visit							
Medical Hx, including Rx's, reviewed/updated in the last year							
Allergies noted							
Appropriate consent forms signed							
RADIOGRAPHS AND DIAGNOSIS:							
Radiographs prescribed by DDS prior to exposure and not based on standard recall							
Radiographs present and labeled							
Radiograph # & quality adequate to diagnosis							
Diagnosis for each procedure & mode of detection noted ("x-ray", "visual", "stick & drag")							
Diagnosis appropriate for clinical condtion (noted in narrative, odontogram, or diagnosis code)							
DENTAL CHARTING AND NOTES:							
Intra-oral and extra-oral exam findings recorded							
Progress note present							
Progress notes appropriate for diagnosis							
Progress note signed by provider							
Recognized Caries Risk Assesment form (AbCd_MT, AAPD, ADA, CAMBRA) completed as appropriate							
Treatment rendered recorded							
Procedures billed are appropriate and match treatment rendered and recorded							
Materials recorded							
BP taken for surgeries							
Quantity and type of anesthesia							
PATIENT DISCUSSION:							
Non-covered Services Form signed as appropriate (Medicaid only)
